Class   CMPS 261
Section   001
Problem   Programming Assignment #5
Name   McKelvy, James Markus
CLID   jmm0468
Due Date   12:30pm December 1, 2005

IV. Verification and Validation Documentation

IV.1 Test Plan

1. Since no input from the user is required, we will simply run the program to make
    sure that all of the methods work as desired, then exit the program.

IV.2 Test Results

See attached page.

IV.3 Operating Instructions

IV.3.1 File Locations

cmps2611/proj5/makefile
cmps2611/proj5/main.cpp
cmps2611/proj5/Matrix.h
cmps2611/proj5/Matrix.cpp

IV.3.2 Directions on using the makefile

1. Go to the Unix terminal
2. Make sure you are in the correct directory: cmps2611/proj5/
3. Type in "make"
4. The CC compiler will create *.o files and an executable file named "main"

IV.3.3 Directions on how to run the generated executable

1. Go to the Unix terminal
2. Make sure you are in the correct directory: cmps2611/proj5/
3. Type in "main"

IV.3.4 Cautions

None

2
